EDUCATION

● B.Sc. Computer Science with
Cognitive Systems
Hindusthan Arts & Science,
Coimbatore
2020 - 2023
● SCHOOL
St Paul's Matric Hr.Sec School,
Gobichettipalayam
2019 - 2020

SKILLS

- HTML 5
- CSS 3
- JAVASCRIPT
- React.js
- React Hooks
- Virtual DOM
- BOOTSTRAP
- Tailwind Css
- Material Ui
- GITHub
- Vercel
- SPA

HOBBIES

- Coding
- Web Development
- Badminton
- Polevaulting

LANGUAGES

- English
- Tamil

PROFILE

I am a dedicated and passionate front-end developer with a solid foundation in building component-based architectures using React.js. I have experience in modern web technologies like React Hooks for managing state and side effects, as well as Tailwind CSS for styling. I am eager to continue learning and expanding my skill set, with a goal of becoming a proficient full-stack developer in the future.

INTERNSHIP

- React.js Intern
June 2024 - August 2024 | [Completed Certificate](#) | [BlueCode Academy](#)
 - **Developed interactive web applications:** Worked as a front-end development intern for **two months**, gaining hands-on experience in building interactive web applications using React.js.
 - **Implemented responsive designs:** Designed and implemented responsive layouts, ensuring optimal functionality across various devices and screen sizes.
 - **State management:** Utilized React's hooks to manage state efficiently, streamlining data flow and reducing component complexity.
 - **Version Control and Deployment:** Utilized GitHub for version control and collaborated with the team on code management. Deployed applications using Vercel, ensuring smooth integration and live updates of the project.

PROJECTS

E-COMMERCE WEBSITE USING REACT.JS - 2024 [🔗 View Output](#)

- Developed a fully functional e-commerce website utilizing React.js for dynamic and interactive user interfaces.
- Implemented user authentication features to manage secure logins, registrations, and personalized user experiences.
- Integrated payment gateways to support various payment methods, ensuring a seamless and secure checkout process.
- Designed and optimized a responsive layout to provide an optimal viewing experience across different devices and screen sizes.
- Utilized React Hooks and Context API for efficient state management, improving application performance and user interaction.

Portfolio Website - 2024

[🔗 View Output](#)

- Developed a comprehensive personal portfolio website using React.js and CSS modules to effectively showcase projects, skills, and achievements.
- Designed a sleek and modern user interface with a focus on user experience, ensuring intuitive navigation and a visually appealing layout.
- Implemented dynamic components using React.js to present project details, skills in an organized and engaging manner.
- Utilized CSS modules for modular and maintainable styling, ensuring consistent design across different sections of the portfolio.
- Optimized the website for performance and responsiveness, ensuring compatibility across various devices and screen sizes.

Mini Projects - 2024 |

[🔗 View Output](#)

- Developed multiple mini projects using React.js, demonstrating proficiency in building dynamic and responsive web applications.
- Utilized React hooks, state management, and component-based architecture to create efficient and reusable code.
- Implemented user interface features and optimized performance for better user experience.
